Reminder about modalities to validate the semester: you have to validate all Teaching Units:

- * The grade for a Teaching Unit corresponds to the weighted average of the corresponding courses in it;
- * A Teaching Unit gets automatically unvalidated if you get a grade < 6 / 20 for one of the course in it;
- * If you do not validate a Teaching Unit, you will be convoked to resit exams to take your second chance;
- * When catching up a Teaching Unit, the obtained grade is given to all the courses in it;
- * You only get the total amount of ECTS of a given Teaching Unit when it is fully validated.

If the semester is not validated, 3 scenarii exist at the end of the year for the academic committee:

- 1/ Go to the upper level, with 'exam debts' for the failed Teaching Units;
- 2/ Resit the full year;
- 3/ Be expelled from Albert School.
